

## FEFAC FACILITATES EU FEED INDUSTRY COMMITMENT TO RESPONSIBLE SOY SOURCING

(19) CP 3

Brussels, 24 May 2019

FEFAC welcomes the commitment of leading feed companies to responsible sourcing of responsibly produced feed materials. As part of their commitment, feed companies agree to take specific actions regarding the sourcing of responsibly produced soy products used in compound feed manufacturing in the EU by 2025, from home-grown and imported origins.

FEFAC and the International Trade Centre (ITC) have developed [an online platform](#) enabling feed companies to state their voluntary commitment to sourcing responsibly produced soy products, meeting the criteria laid down in the FEFAC soy sourcing guidelines.

FEFAC encourages its member associations and respective member companies to join the list of signatories to support the common goal of a mainstream market transformation of soy products used in the European feed industry.

### **Notes to the editor:**

1. FEFAC, the European Compound Feed Manufacturers' Federation, represents 23 national Associations in 23 EU Member States as well as Associations in Switzerland, Turkey, Serbia, Russia and Norway with observer/associate member status. The European compound feed industry employs over 100,000 persons on app. 3,500 production sites often in rural areas, which offer few employment opportunities.
